

Premium SMSF service

Daily administration, annual year-end compliance and online web access

- Daily administration and reconciliation of your SMSF's transaction data
- Annual year-end accounts, tax return and audit
- Secure online access to your SMSF's investment portfolio and income details
- Relevant and up-to-date information on your investment portfolio that is valued at prior day's market close prices

An integrated full service SMSF administration and accounting, taxation and audit service, with a 24/7 access to essential up-to-date information via a standard web browser.

Don't wait for monthly or quarterly report. Get secure online web access to up-to-date timely information about your SMSF's investment portfolio and details of investment income based on prior day's market close prices - for example, listed securities are revalued daily after close of business.

View online:

- Up-to-date snapshot of your SMSF's investment portfolio. Investments that are ASX listed are valued at prior day's closing price
- Historical investment portfolio at market price on a particular date
- View investment income and expenses
- Member details and benefits, including estimated benefits on a particular date
- Generate on-demand allocation of asset report and comparison to customised asset allocation strategy.

How it works

To get data into our system quickly and efficiently, data are provided by the bank or share broker by authority that feeds directly into our system. The data is generally provided overnight and reconciled the next working day by Superannuation Accounting Services.

This quick and efficient data feeds allows for timely reporting, meaning that you have access to up-to-date information at your fingertips. Access is available on a secure website 24/7 via a standard web browser.

We do not restrict you or tie you down to particular bank or broker. The bank or broker that currently provide direct feeds is constantly expanding. For those that currently do not provide a direct feed, you will need to forward to us the statements.

Annually, the financial year-end accounts, audit and taxation return are prepared.

What's the costs

Administration
and
online web access

Annual financial
year-end accounts,
audit and taxation
return

} \$1,640

Fee based on fund with up to 150 direct-feed transactions and up to 150 non-direct-feed transactions. Additional fees may apply for additional transactions, currently \$3 per transaction. Additional charges may apply for non-standard assets. Additional fees apply for a fund paying superannuation pensions, currently \$335. Fee is for complying SMSF.
